## Learning Objectives for the Defeating Unconscious Bias elearning course.

At the completion of training, each participant will:

1. Become aware of the impact of unconscious biases on themselves, their colleagues, and their workplace.
2. Understand that even unconscious biases can be defeated.
3. Learn how to employ 5 practical strategies to identify and counter their own unconscious biases.

“Acknowledging that unconscious bias exists in all of us is a good first step, but then we need actionable and memorable resources to interrupt bias. This 14-minute video offers 5 simple, actionable, and memorable strategies to enhance workplace productivity and innovation by addressing bias. The authenticity and diversity of the scenarios utilized keeps your attention, and the solutions suggested support change without blame.”
